- Document Management (With Expiry)
- User Subscription & Communication
- Payment Management
- Department, Services & Designation Handling
- Client Management
- User Activity Tracking
- Task Management
- Services Offered & Tracking
- Invoicing & Payment History

Document Management

Store Important Documents

Easily organize and safeguard your critical documents with advanced security features. ProPractice ensures your files are protected, accessible, and stored in a streamlined, user-friendly system. Keep your data safe and at your fingertips whenever you need it!

Set Expiry

Ensure sensitive documents remain accessible only when needed with the option to set expiry dates. ProPractice enables you to control document access, enhancing security and promoting efficient management. Keep your data protected and time-sensitive!

User Subscription & Communication

The User Subscription and Communication module in Pro Practice allows businesses to easily manage and control user access by supporting a defined number of users. This feature ensures seamless subscription management, enabling businesses to allocate and monitor user access effectively while maintaining secure and organized communication channels.

multi-channel communication, sending instant notifications via WhatsApp and email. This ensures users stay informed with timely updates and alerts, enhancing engagement and streamlining communication within the platform.

Payment Management

User access is restricted prior to payment according to predefined rules. Age-based payment options provide flexibility in subscription management. Pro Practice ensures that user access is limited before payment, following predefined rules for seamless control. Additionally, it offers age-based payment options, providing flexibility in managing subscriptions for different user groups.

Department, Services & Designation Handling

Pro Practice allows businesses to organize employees by departments, services, and designations for clear structure and accountability. It also enables efficient role and responsibility assignment, ensuring streamlined operations and enhanced team collaboration

Client Management

Pro Practice's Client Management module helps businesses efficiently track and manage client interactions, ensuring a personalized experience. It streamlines client data organization, enabling easy access to vital information for improved service delivery and relationship building.

User Activity Tracking

To monitor individual user activities and performance, providing valuable insights for optimization. It also ensures compliance by tracking productivity, helping maintain efficiency and adherence to organizational standards.

Task Management

Simplifies task management by allowing you to assign, track, and oversee tasks efficiently. With features to set deadlines and prioritize tasks, it ensures timely and effective execution.

Services Offered & Tracking

To maintain a comprehensive list of services provided to each client and track their service history. This ensures seamless operations and enhances client satisfaction through personalized service management.

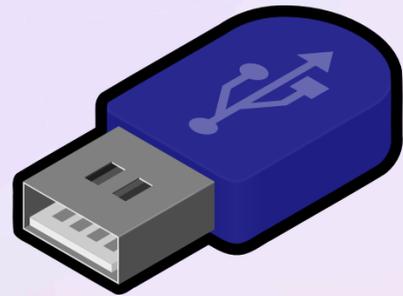

Invoicing & Payment History

Automates invoice generation based on the services provided, saving time and reducing errors. It also maintains a complete payment history, offering detailed financial tracking to ensure transparency and streamlined billing management.

Benefits

Improved Operational Efficiency

Better Client & Task Management

Automated Notifications & Expiry Alerts

Easy Communication via WhatsApp & Email

Seamless Invoicing & Payment Tracking

Conclusion

Pro Practice is a comprehensive document management solution designed to streamline operations and enhance productivity. With its robust features like user subscription control, multi-channel communication, client and task management, and automated invoicing, it empowers businesses to operate efficiently while maintaining compliance and fostering better client relationships.
